Building Official - occupancy permit

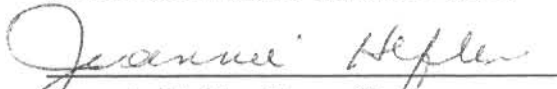

Councilman Mohr states the Council has been discussing the BOCA code and occupancy permit issue since the summer of 1997. Councilman Mohr says the state of Virginia gave existing businesses one year to comply with the new code. Councilwoman Leonard says the town has historic properties and they don't have to comply. Councilman Mohr says they have to comply and by our taking tabling this issue the Council has taken away the year the businesses had to comply and now they are pushed to comply immediately.

Councilman Leonard states when the Historic District Overlay and ordinances were adopted the existing businesses were not required to comply.

Recess

Councilwoman Leonard left the meeting at 10:43 p.m. leaving Council without a quorum.

RESPECTFULLY SUBMITTED:

Jeannie Heflin, Town Clerk
